GENERATION

Today's seniors are living extraordinary lives. At seventy years old in 2018, they've experienced leadership under thirteen presidents, the Civil Rights Movement, the Moon Landing, early Rock n' Roll – Elvis Presley, the Beatles, the fall of the Berlin Wall, the rise of the internet and so much more. Asking for advice from your grandparents can reveal the senior truths they have on a multitude of topics including faith, relationships, success, failure and career. After all, they've been there and have the best advice for younger generations.

We sat down with our Members at The Stratford and had them share their best advice on a money, love, education, faith and general advice to live your life by. Their candid answers gave us unique insight into their incredible life experiences.
